Commissioner for Patents

Applicant has stated : "In paragraph 9, the Office action states that upon election of Group 1 or 2, Applicant is required under 35 U.S.C, 121 to elect a single disclosed species of reorientation mechanisms for prosecution on the merits to which the claims shall be restricted if no generic Claim is finally held to be allowable. Applicants submit that none of the elected claims recite a reorientation mechanism and thus, this election is also not applicable."

Applicant has not complied with the requirements of 37 CFR1.111 and 1.143.

A provisional election must be made even through the requirement is traversed. The examiners election requirement is drawn to the disclosure and not the claims. Applicants arguments with respect to the election/restriction requirement as being improper because these limitations are not claimed is therefore moot.

The examiner respectfully requests applicant to review his election and specially state which claims are readable elected groups I, a, d, e, l, p, s, q, r, and --one of h or i or j or k--.

A shortened statutory period for reply is set to expire 1 month from the mailing date of this communication. Extensions of time may be available under the provision of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX(6) months from the mailing date of the communication.

Failure to reply within the set or extended period for reply will, by statue, cause the application to become ABANDONED (35 USC 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment . see 37 CFR 1.704(b)
